THE MOST VERSATILE SOLUTION FOR CALL TRACING & SUPERVISION

CallSaver
call tracer • call recorder

Call Tracer - Call detail reporting & billing software

Call Recorder - Call detail voice digital recording hardware

CallSaver Is a Windows based, easy to use phone call detail reporting and billing software.

It consists of three separate modules: Call tracer, Call recording, and caller identification popups.

It includes powerful reporting tools which will generate detailed call reports by several categories.

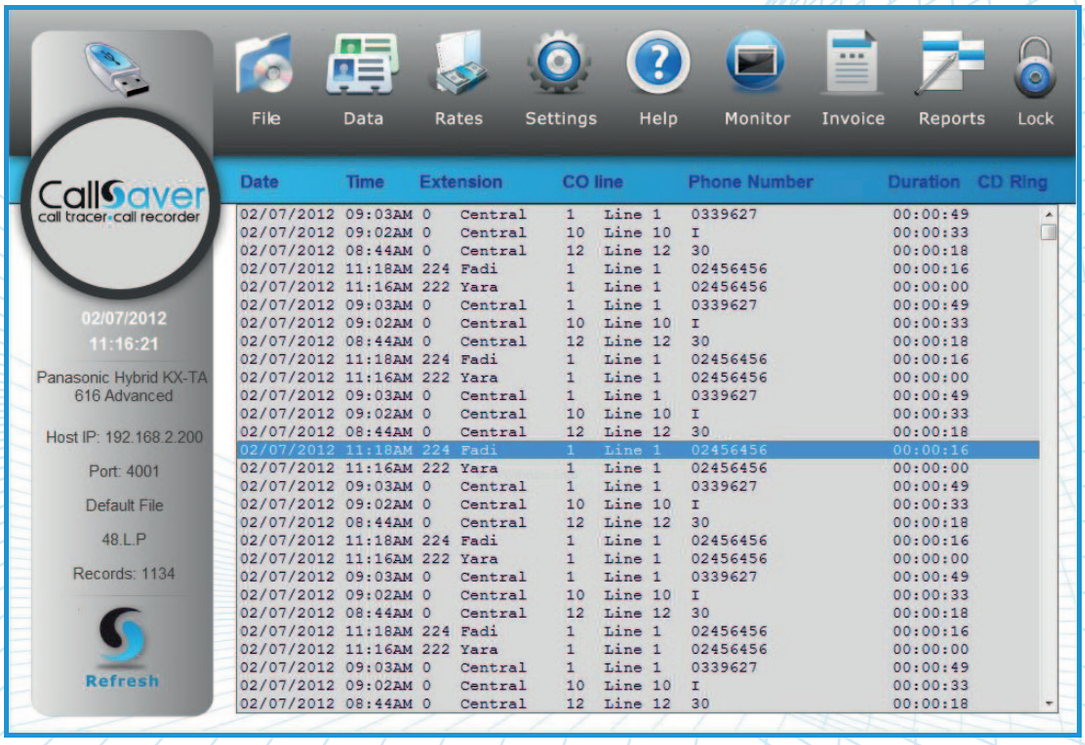

It enables phone call data collection and archiving by managing and monitoring the continuous flow of communication between the PBX and the PC.

It operates under any Windows platform and It is compatible with most PBXs.

Data and reports can be exported to any Microsoft Office applications.
