A POWERFUL AND FLEXIBLE NURSE CALL COMMUNICATIONS SOLUTION

NurSeeker nurse call system

The needs of hospitalized patients are more complex than ever before, making it a priority for medical facilities to continuously improve the patient environment and in turn improve both patient and staff satisfaction.

NurSeeker solves the communication issues faced by hospital facilities by delivering flexible and integrated solutions that address these issues today… and tomorrow.

NurSeeker is a smart computerized flexible system tailored to the needs and facilities of each hospital, clinic or healthcare institution.

Accessories

BENEFITS

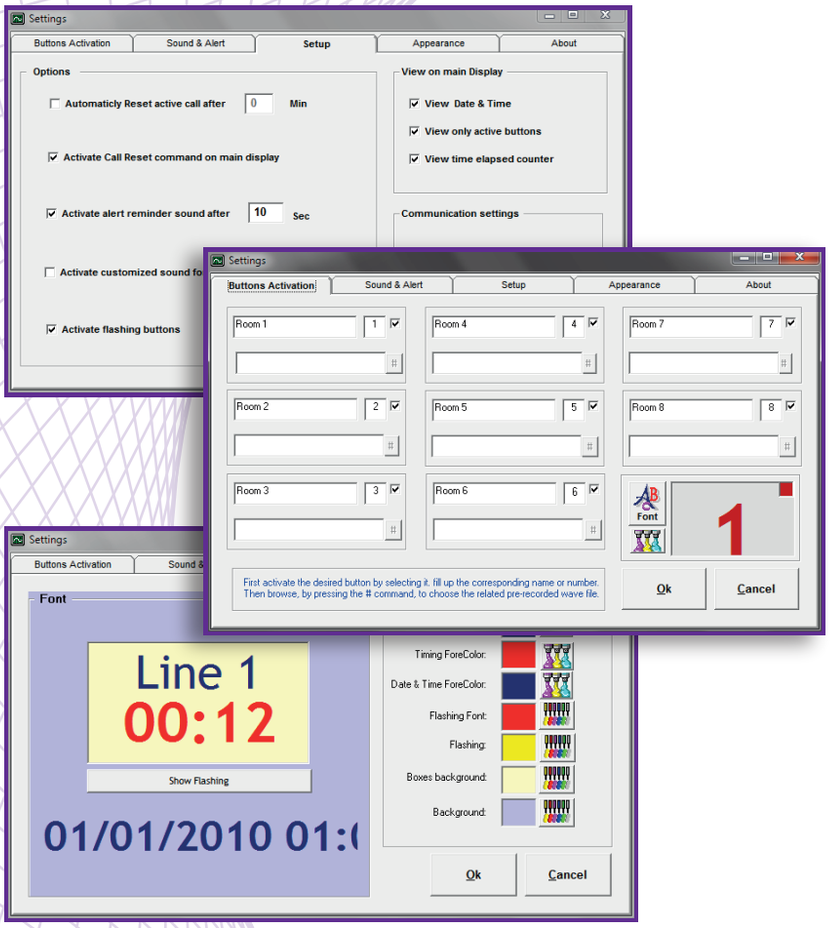

- Reflects a professional image of the institution while ensuring appropriate accreditation.
- Enhanced staff mobility and increased productivity resulting in patients satisfaction.
- Stimulates quieter healing environment by reducing overhead paging.
- Custom designed accessories which integrate into each hospital decoration.
- Fast and direct patient to nurse communication that places patients in a comfortable yet safe environment.
- Eliminates frequent dispute, hostility and complaints among nurses and patients.
- Satisfies each patient's condition by providing a specialized calling button.
- Extends the use of the display by diffusing elapsed time and notifications.
- Generates valuable data and reports from the entire communication situation concerning the overall nurse's flow and the productivity of each section. Consequently, it improves management awareness and control.
